Introduction

Close to Ladakh's eastern border with Tibet, the rarely visited high plains of the Chang Tang are coloured in just a few places by beautiful turquoise lakes, such as Tso Kar and Tso Morari and this exciting trekking and climbing holiday is the perfect way to view this remote and stunning landscape. After acclimatising and sightseeing in Leh, we set off into the heart of this remote area, inhabited during the summer by nomadic herders and by rare animals such as wolf and kiang (wild ass) year-round. After a week of inspirational trekking, we reach the Yalung Naula Pass (5400m) where we get our first views of the 20-kilometre long Tso Morari. Not far from the village of Karzok, we establish a basecamp above the lake at an elevation of 5300 metres and from here set out to climb one or two of the summits of the Mentok Massif, all of which are above 6000 metres. The exact choice of objective and route will depend on conditions at the time. The routes to the summits of the Mentok peaks are generally of a relatively straightforward technical standard on snowslopes and the guides will fix ropes on any steeper ground we encounter. Any of these peak present an excellent challenge to fit and adventurous trekkers and this holiday is a super trek and climb combination in a special part of the world.

Is this holiday for you?

Neither the trek to Tso Morari, nor the climbs on Mentok Kangri are technically very difficult undertakings. However, the high altitudes involved during the trek (between 4500 and 5500 metres) and the climbing above 6000 metres including the use of fixed ropes, does mean that this trip will present a physical challenge to even very fit group members. The lower slopes and approaches to the Mentok peaks are likely to be free of snow during the summer months, but on the upper part of the mountain we will need to use crampons and carry an ice-axe (in addition the KE leader or local climbing staff may fix some sections of rope). It is not necessary to have previous experience of using fixed ropes as the simple techniques will be taught during the preparation for the climbs. However, we recommended that all group members have previous experience of winter hillwalking as well as previous experience of trekking at altitude.

Meal Plan

All meals are included in the holiday price from lunch on day 1 to Breakfast on day 21.

Food & Water

It is not recommended to drink untreated water from the taps. If you are on a trekking or cycling holiday, water is supplied to fill up your individual bottles. This will be boiled, filtered or provided in large jerry cans or 5 litre bottles. Additionally you should take purification tablets or a filter bottle (such as a [Water-To-Go bottle](#)) to treat your water when in towns or where water is not supplied. We do not encourage the purchasing of single use plastic bottles.

The food served during the trek is a mixture of local and Western, mostly purchased locally and cooked for us by highly trained trek cooks. The emphasis is on providing a high-carbohydrate and largely vegetarian diet, which we have found to be easily digestible at high altitude. In Delhi, we take our meals in the group hotel or in nearby restaurants. All meals while on trek and while staying in hotels are included in the trip price.

Accommodation

On arrival in Delhi and for one night after the trek, we stay at a hotel close to the airport which provides convenient and comfortable accommodation. Being near the airport makes the whole travel experience more relaxing, whilst still allowing us to include a sightseeing city tour. In Leh, we have 4 nights in a good standard of hotel. Whilst on trek there are 14 nights camping. All accommodation is allocated on a twin sharing basis. If you are travelling by yourself you will be paired up with another single client of the same sex. It is possible to hire a single tent while on trek. Depending on availability it may be possible to pre book single rooms. For additional hotel prices and single supplement costs please refer to the dates and prices page of the trip on our website.

Group Leader & Support Staff

The group will be accompanied by an experienced, professional leader throughout the trip. During the trek, there will also be a full trek crew, including a local guide or sirdar, a team of Sherpas, a cook and a number of pack-animals and their handlers.

Altitude

This holiday involves going to very high altitude. During the course of your trip you will be spending many nights above 4000 metres and several nights above 5000 metres. Basecamp is at around 5300 metres. This is not something that you should worry about; the human body is quite capable of adapting to a very wide range of altitudes, but it is important that we follow some simple rules in order to acclimatise successfully. Before coming on this holiday you should read the advice on trekking at high altitude on our website which can be viewed via the link below. Unless you have previous experience of sleeping above 4000 metres, you should also consult one of our trekking experts before embarking on this holiday. On this trip we carry a portable altitude chamber (PAC-bag) and/or bottled oxygen for use in emergencies. www.keadventure.com/page/altitude.html

Spending Money

Approximately £200 (or equivalent in Euros / US dollars etc.) changed into local currency, should be allowed for miscellaneous expenses, including porter and trek crew tips (allow approximately £70) and extra drinks, etc. (allow approximately £40). It is not necessary to purchase local currency (Indian Rupees) before you travel. We recommend taking your personal spending money this in cash since you will be changing the majority of this into local currency on the day of arrival, and changing travellers' cheques can prove time consuming. Sterling, US dollars and Euros are readily exchanged in Delhi. Credit cards can be used to purchase many goods in Delhi and are particularly useful for more expensive souvenirs. It is also possible to withdraw cash (rupees only) from ATMs in Delhi and Leh using credit and debit cards.

Guidance on Tipping

Tips are the accepted way of saying 'thank you' to your local guides and porters. They do not form part of their wages. KE always pays local crews the best rates of pay, no matter what country they are in and any tips they receive are seen as a personal thank you from group members. For our part, we advise local teams that tips are not a duty or a prerequisite but are a bonus and entirely dependent on the service that was given. We recommend that tips are given by the group as a whole rather than individually and as a rough guide we suggest that a contribution of approximately £70 (or equivalent in Euros / US dollars etc.) changed into Indian rupees should provide a good tipping pool for your local staff. Your trek leader will help to coordinate these tips and advise on an appropriate level of tipping for each crew member. At the end of a trek many people also like to donate various items of their equipment to the porters and trek staff who work so hard to make the trip a success. Boots, gloves, hats, scarves and even socks (clean of course) are always warmly received by the porters, many of whom are simple farmers earning extra cash by porterring for trekking groups. Technical clothing and equipment such as head-torches and trekking poles are highly prized by the local guides and camp crews.

Baggage Allowance

For this holiday you should take one piece of luggage, which should be a soft and sturdy duffel bag, and a day pack. Your baggage on trek will be carried by porters or pack animals. The packed weight of your trek bag whilst trekking should be no more than 15kg. Please note that the check-in baggage limit on all internal flights within India is now 15kg with a maximum cabin baggage limit of 7kg and you are responsible for any excess baggage fees that the airline may apply. From time to time cabin baggage (other than laptops, cameras and valuables) is not allowed on the Leh flight for security reasons. In this event, the limit for check-in baggage may be increased to 20kg at the discretion of the check-in staff. It is possible to leave travel clothes and any other items not required on trek at the group hotel.

Group Size & Holiday Status

For each holiday there is a minimum number of participants required to enable it to go ahead. Once the minimum number is reached, the trip status will change from 'Available' to 'Guaranteed to run'. You can check the trip status for each departure in 'Dates and Prices' table. Other than in exceptional circumstances, we will not cancel a trip once it has achieved this guaranteed to run status and so you are free to proceed with your international flight booking and other travel arrangements.

General Information

Passport & Visas

The information that we provide is for UK passport holders. A passport with 6 months remaining validity at the end of your stay is generally required, and you should have at least 2 blank pages for each country that you visit.

It is your responsibility to ensure that you have the correct travel documents and visas for your holiday. Please ensure that you check for the latest advice before travel. For the most up to date information on entry requirements, please visit the [UK Government website](#).

Visa India

Most nationalities, including travellers from the UK, the USA and many European countries can apply for their Indian Visa online through the **E-Visa Application** process. You must make your application at least four days prior to departure. Please download the detailed information document for details of how to apply for your visa: [Visa India PDF](#)

Health & Vaccinations

If you have a severe allergy please inform the KE office before you travel. We will do all we can to help, but we cannot guarantee an allergy free environment on KE trips. You will need to carry your own treatment for the allergy with you, as 'adrenaline auto-injectors' are not carried as standard by KE leaders and staff. You should inform your leader on arrival of your allergy, and let them know where you keep your adrenaline pen.

Dengue fever is a known risk in places visited. It is a tropical viral disease spread by daytime biting mosquitoes. There is currently no vaccine or prophylaxis available and therefore the best form of prevention is to avoid being bitten. We recommend you [take precautions to avoid mosquito bites](#).

Zika virus has been confirmed as active in this country. It is a tropical viral disease spread by daytime biting mosquitoes. There is currently no vaccine or prophylaxis available and therefore the best form of prevention is to avoid being bitten. We recommend you take the usual precautions to avoid mosquito bites. The mosquitoes that transmit ZIKV are unlikely to be found above 2,000m altitude. For more information, visit the website of the National Travel Network and Centre (NaTHNaC) at <https://travelhealthpro.org.uk>

Vaccinations

You should contact your doctor or travel clinic to check whether you require any specific vaccinations or other preventive measures. You should be up to date with routine courses and boosters as recommended in the UK e.g. diphtheria-tetanus-polio and measles-mumps-rubella, along with hepatitis A and typhoid.

Malarial prophylaxis is not usually required for trips in the mountains, however if you are visiting rural and remote low lying areas then they might be necessary.

On holidays to more remote areas you should also have a dentist check up. A good online resource is [Travel Health Pro](#).

Preparing for your Holiday

It makes a lot of sense to spend some time before coming on a trekking or climbing trip getting some additional exercise. The fitter you are, after all, the more enjoyable you will find the experience. For this trip you need to be aerobically fit and also comfortable with walking up to 7 or 8 hours on some days. Previous experience of walking on easy snow slopes wearing crampons is recommended as is previous experience of trekking at altitude (above 5000 metres). We would suggest that you adopt a weekly exercise regime leading up to your trip. Regular hiking in hill country is the best training but jogging, squash and swimming are also good for developing cardio vascular fitness and stamina.

Climate

During July and August the temperature in Delhi will be hot (35°C or even a few degrees hotter than this). It will also be humid. On the high plateau of Ladakh, the maximum daytime temperature low down on our trek (and at Leh) will be around 15°C, with night-time lows below 10°C. At our highest camps, the night-time temperature may fall as low as minus 20°C. Climbing on the Mentoks, the temperature will vary from sub-zero in the early morning to 10°C. At high altitude, the sun has a very strong effect and at the height of the day it will feel hotter than the indicated temperatures. Ladakh is not adversely affected by the monsoon and we can usually expect stable, weather. However, mountains do generate their own weather systems and some rain or snowfall cannot be ruled out.

Travel Aware

As a reputable tour operator, KE supports the British Foreign, Commonwealth and Development Office's '[Travel Aware](https://www.travelaware.gov.uk)' campaign to enable British citizens to prepare for their journeys overseas. The 'Travel Aware' website provides a single, authoritative source of advice for all kinds of travellers and we recommend that prior to travel, all KE clients visit the official UK Government website at travelaware.campaign.gov.uk and read the FCDO Travel Advice for their chosen destination. North Americans can also check out the U.S. Department of State website: www.travel.state.gov for essential travel advice and tips.

KE treat the safety and security of all clients as the most important aspect of any trip we organise. We would not run any trip that we did not consider reasonably safe. Should the FCDO advise against travel for any reason, we will contact everyone booked to travel to discuss the situation. We receive regular updates direct from the FCDO and are in constant touch with our contacts on the ground. If you have any questions about government travel advice, please call our office.

Single Use Plastic

KE do not encourage the use of single use plastic items. We are ensuring that our agents all over the world are working together to reduce the problem and educate those around them. We are leading by example in our KE office by reducing our plastic use.

These will be collected from you at the start of the trek).

Mountaineering boots: Well-insulated single boots designed for Alpine mountaineering (minimum B2 rating) are suitable for departures prior to September. For departures in September or October the low temperatures encountered combined with high altitude mean that double boots with insulated inners are the best to keep your feet warm. We recommend you speak to a mountaineering equipment specialist retailer for further advice.
